April 23rd, 2020

Dear parents,  
Dear students,  
Dear colleagues,

We sincerely hope that you are doing well and staying healthy during these challenging times.

After six weeks of distance learning, we are finally ready to return to school, taking one step at a time. Providing our students with proper schooling is important to us while we also want to protect everyone's health.

Classes will begin on Monday, April 27, 2020 for students presently studying for their finals in grades 9 and 10, as well as for our international classes ESA1, MSA1, MSA2, and IbE. There is going to be one morning and one afternoon period. To keep the number of encounters on campus low, classes and breaks are scheduled to begin at different times. This makes punctuality essential! Students arriving late will be turned away! Our teachers will inform you of your study group, its location, and precise timetable.

For now, there won't be any lunch provisions and the water fountains will remain closed.

12th graders will return to school on May 4th. Everyone else will continue studying from home.

Together with this letter, you will receive the detailed hygiene regulations for schools issued by the City of Hamburg and customized according to the circumstances at Emil Krause School. This 10-page paper is likely to answer most of your questions. Please read the regulations carefully and discuss them with your children!

A successful relaunch to all of you as we gradually return to school together!

Kind regards,

Arne Gudjons
